

ICT-3 My Favorite Noun Webpage Project - Version 1

Directions:

For this project, students will plan and design a webpage that contains information about their favorite noun. This project will serve as a refresher for students returning from ICT-2. It will also be an easy introduction for students new to ICT-3.

Students will need to use proper HTML5 coding procedures while working on this project.

Content Rubric

- HTML contains the correct `<!DOCTYPE>` element. [5 Pts.]
